

Metal Furring Ceiling Channel

Top-hat shaped steel section provides the fixing surface on the Speedline MF ceiling system.

MATERIAL PROPERTIES

Product Material

DX51D Steel

Product Finish

140 micron galvanised coating

Fire Classification

A1

Tensile Strength

270-500N/mm²

Density

7.85g/cm³

Minimum Elongation A80%

22% (A80)

PRODUCT APPLICATION

Affixed to the underside of the primary channel to provide a base for fixing the plasterboard lining for a smooth suspended ceiling finish.

FEATURES AND BENEFITS

- For use in multiple Speedline systems across a variety of sectors
- Can be cut using tin snips or power tools
- Dimensionally accurate
- Available in 3.6m lengths, each weighing under 2kg
- For more specific technical information about our Speedline MF or other systems, please view or download our Speedline manual or contact our technical team
- Also available in Speedline Low Carbon
